English - Advanced, Amharic - Native,
Geez - Low

About

I am a recent Computer Engineering graduate with hands-on experience in full-stack web development, skilled in front-end technologies such as HTML, Tailwind CSS and React, as well as back-end development using Node.js, Express, MySQL and MongoDB, I have successfully done various projects, including a High School Management System and a Density-Based Traffic Light Control System using YOLO. Additionally, I developed a custom Stock Management System for a client, delivering a solution tailored to their needs. I thrive in collaborative, Agile environments and am eager to contribute to innovative projects. Committed to continuous learning, I aim to drive professional growth in the tech industry.

Education

 Bachelor Computer Engineering Bahir Dar University GPA: 3.47	Jul 2024 Graduation date
---	-----------------------------

Work experience

 May 2023 - Sep 2023 4 month Full-stack development NERD	Completed a 4-month full-stack web development internship (May–Sept 2023) using HTML, Tailwind CSS, and React for the front-end; Node.js, Express, MySQL, and MongoDB for the back-end; and REST APIs for integration. Implemented CI/CD with Jenkins and followed Agile methodology in collaboration with a team of 3.
---	---

Certifications

 Jun 2024 Certification was issued	Job readiness Dereja
--	--------------------------------

Additional Skills
